## APPRENTICESHIP

### SCHEME OF THE WEEK

FCDO helps support UK diplomacy, defence and development opportunities across the globe and operates across 168 countries. They have a variety of Apprenticeship roles on their scheme including Building Surveyor and Construction Technician. Click for more info.

FCDO Services

The University Guys provide expert advice and support for pupils wanting to apply to study for a degree at an international university. Whilst their consultancy fees are expensive there is also lots of free information, including guides and a podcast series, on their website.

Have you always dreamed of **working in conservation**, but don't know where to start?

Chester Zoo has an excellent range of materials to help you understand the roles available and the skills and qualifications you will require.

This is a really good video for pupils who are planning on applying for a higher or degree apprenticeship later this year.

### Microbiologist

Microbiologists study microorganisms (microbes) in order to understand how they affect our lives and how we can exploit them. This can include the prevention, diagnosis and control of infections and disease, as well as ensuring that food is safe, understanding the role that microbes play in climate change, and developing green technologies. Microbiologists will commonly have a Degree in Biological Sciences and a Masters in something more specific such as Microbiology.

Job of the Week

**New student loans to cost many 50% more: Martin Lewis' 6 need-to-knows about 'Plan 5' English student finance**

There's a lot of confusion and misunderstanding around student loans. This excellent article from Martin Lewis will help explain what you need to know.
