APPRENTICESHIP

SCHEME OF THE WEEK

Two of our 2024 leavers have recently joined the prestigious JLR Apprenticeships scheme as Degree Apprentices. JLR's extensive programme offers Apprenticeships at different levels covering areas such as Engineering, Logistics, Finance, Digital and Technology.

JLR

YEAR 13/S6

CAMBRIDGE INTERVIEW WEBINARS

Upper Sixth pupils intending on applying for Cambridge have the opportunity to take part in interview webinars in September. The workshops will be delivered by Cambridge academics and will be interactive group sessions. They aim to provide a better idea of what to expect at interview, and how best to prepare.

STUDY IN AMERICA
THURSDAY 12.9.24
5.00-6.30PM
THE BARNES THEATRE, SHREWSBURY SCHOOL

Why America? | Picking your college | Testing | Sports & other Scholarships

Shrewsbury School are hosting an event for pupils interested in studying in the US. Pupils in Year 11+ who would like to attend should **email Mrs Wilson** before the end of Monday 9th September.

4 SKILLS WORK EXPERIENCE

Pupils who were inspired by Blue Peter presenter Shini's visit on Thursday can take part in Channel 4's on-demand work experience programme. The programme covers areas such as Creativity, Production and Commissioning.

With a library as beautiful as the BSL it's not surprising that pupils are interested in the many roles that go into creating the amazing books you'll find on every shelf.

Penguin's 'Work in Publishing' site offers an insight into the variety roles that are available and provides tips for those interested in pursuing a career in the industry.

Orthodontist

Many of our pupils will have met an Orthodontist and they might be curious about what the role involves and the qualifications these professionals require. Orthodontists specialise in preventing, diagnosing and treating various facial and dental irregularities. They initially train as dentists and then take additional qualifications to become Orthodontists and may work for the NHS or in private practice.
