APPRENTICESHIP

SCHEME OF THE WEEK

The NHS is one of the UK's largest apprenticeship providers and offers routes into many of the more than 350 NHS careers through a mix of on-the-job training and classroom learning. Degree level schemes are available in many areas including radiography, occupational therapy, nursing, dietician, speech & language therapy and podiatry.

The Screen Skills podcast goes behind the camera to explore the UK screen industries with the help of those working in it. It's great way to get an insight into the industry and the wide range of career opportunities it offers.

14th
April

This one-day virtual experience is designed to give pupils in years 11-13 valuable exposure to the world of professional services, helping them build confidence, develop key skills, and gain an understanding of career opportunities at KPMG.

United Through Sport is focused on using the power of sport to improve education, raise health awareness and build life-skills to kids in disadvantaged communities worldwide. Volunteering with an organisation like United Through Sport is a great way to spend part of a **gap year** and will enhance a CV and help build key employability skills.

United Through Sport

ON Spotlight

Older pupils had the opportunity to meet ON Michael Dinata at this week's Careers Fair. Michael completed a degree in Politics & International Relations at Exeter followed by a Masters in Mining Environmental Management. He now works for De Beers in the area of global supply chain systems.

Quantity Surveyor

A quantity surveyor is the financial linchpin of any construction job.

They are experts at precisely costing buildings from conception through completion while ensuring each project meets all legal and quality requirements.

In addition to academic qualifications QSs also require excellent written and verbal communication skills, strong maths, numerical and data analysis skills and need to be able to quickly develop good working relationships with a wide variety of people.
