

Love Creative Subjects? Turn Your Passion into a Career!

Many students enjoy creative subjects but aren't sure how to turn their interests into a job. The creative industries offer a wide range of exciting careers — far beyond what most students (and parents) expect! 📖 Read this blog to discover the roles available and learn how to turn your hobbies into a successful career.

Explore Archaeology – A Degree That Bridges Science and Humanities

Archaeology combines the humanities with physical, natural, and social sciences, opening doors to careers in heritage, museums, marketing, and more. At Durham Archaeology Day, you'll meet university academics and professional archaeologists from across the UK — a great chance to discover where this fascinating subject can take you.

West Mercia Police Ride Along Scheme – For Upper 6th Pupils Aged 18

Interested in a career in policing or law? Apply for the Ride Along Scheme and gain real insight into local policing. During your ride along, you'll:

- Join a neighbourhood officer on shift
- Discuss community priorities and policing challenges
- See how Officers tackle real issues in our local area.

A great opportunity for pupils considering careers in law enforcement or law.

Looking to build your skills and explore career options after your A Levels? EDT's paid placement scheme offers fantastic opportunities for pupils to gain valuable work experience in leading UK companies. Participants will get first-hand experience in a wide range of fields including: Engineering, Technology & Electronics, Business, Marketing & Finance. These placements are designed to help you explore future career paths, develop professional skills and make informed decisions about your next steps. Click on the image to register for upcoming webinars and learn more about how to apply and what to expect.
