Autumn 2025 Issue 6

MEDIC MENTOR

DENTAL MENTOR

Medic Mentor and Dental Mentor is an organisation that offer a range of services to support pupils applying to medicine and dentistry courses. Many of their services are paid for, it's important to note that medical schools often emphasise that applicants should not feel pressured to pay for support. That said, both organisations also run free events which can be a valuable introduction to the application process for aspiring medics and dentists. These events are suitable for pupils in Years 10, 11 and Lower 6th.

Shropshire is a largely rural county, offering a wide range of exciting careers that make a real impact. To help young people explore these opportunities, the Shropshire Federation of Young Farmers is hosting a Rural Careers Fair. The event will highlight the skills and qualifications local employers are looking for across the sector. You don't need a farming background to build a successful farming, agricultural or rural based career.

Shropshire Federation of Young Farmers' Clubs

RURAL CAREERS FAIR 2025

Thurs 13th Nov 6-9pm

The King's Trust offers free support to young people to help them move into higher or further education, employment or training. Their programmes include confidence-building courses, hands-on work experience, sector-specific training and recruitment events. They also provide funding for tools, courses, and equipment, and offer tailored support for those interested in starting their own business.

As well as being the go-to site for university degree information, UCAS also helps pupils explore apprenticeships. It offers a search tool for live vacancies, advice on applications, and resources to help build a strong CV. Apprenticeships are shown alongside university options, making it easier to compare different pathways. There are currently nearly 4000 apprenticeship programmes listed on UCAS.
