Autumn 2025 Issue 9

Ask the experts webinar

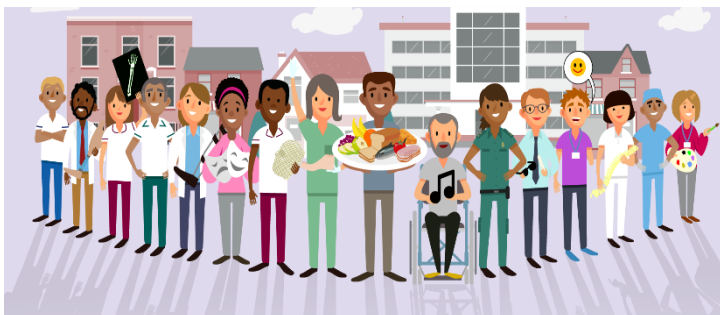

UNIVERSITY OF BIRMINGHAM

Join our panel of current students and expert staff to find out everything you need to know about student life in Birmingham.

Birmingham is a popular choice for Adams pupils. Upper 6th pupils who feel they still need additional support with their application or Lower 6th pupils who are thinking ahead can attend a webinar to ask the experts questions about applying, studying at Birmingham, finance and student life.

3rd December 6.30-8pm.

Geologists are at the forefront of tackling some of the greatest challenges of our time – including the fight against climate change. Their work helps us understand the Earth's processes, manage natural resources responsibly, and protect our planet for future generations. If you have a passion for the natural world, enjoy investigating and solving problems, are confident with numbers, articulate in communication and thrive both independently and as part of a team, then a career in Geology could be your perfect path!

Many pupils aspire to become doctors – a truly worthwhile and ambitious goal. However, medicine is a vast field, and we encourage pupils to explore the wide range of allied professions. From art therapists to osteopaths, and from dietitians to orthoptists, there is a diverse array of careers that make a real difference to people's lives.

Do you dream of creating your own video game?

Game designers turn big ideas into unforgettable experiences. Watch this lecture to see how a simple concept grows from a sketch into a fully playable game and get an insider's view of life in game development. Whether you're curious about programming, fascinated by design, passionate about storytelling, or just love playing games, this talk will reveal the exciting opportunities and endless possibilities in the gaming industry.
